Professional Summary

Backend-focused Fullstack Developer with experience in banking systems and enterprise integration, including T24 Temenos and middleware platforms. Combines hands-on API development (Golang, Laravel) with practical understanding of financial products and operations from prior experience in banking. Proven ability to support system integration, data migration, and backend services in production environments.

Technical Skills

Backend: Gin (Golang), Laravel (PHP), REST API Development

Frontend: React.js, HTML, JavaScript

Database: MySQL, PostgreSQL

System Integration & Enterprise: Fiorano Middleware, T24 Temenos

Tools: Git, Linux
